PROJECTS

Choice Connect Website, *Next JS,Angular,TypeScript*

- Reporting modules with API-driven search, filters & downloads.
- Built **MF Assisted Transactions flow** with:

1)Mandate management (Applied / In-progress / Pending tabs).
2)**AOF flow**: client hierarchy verification, KRA validation, and RM payment link sharing.
3)OTP-based mandate application APIs (Send OTP, Validate OTP, Success).

Finx Account Onboarding, *REACTJS | TS*

- Designed full onboarding flow (KYC, DigiLocker, Bank, eSign).
- Implemented **RPD verification** with UPI + fallback, cutting failure rate.

- Built error-handling UX for multiple edge cases.

Choice India Website, *REACTJS | Next JS*
- Migrated React pages to SSR with SEO boost.
- Built dynamic Fund listing (~40 funds) with API integration.
